

Specification Confirmation Sheet for Tension Meter (VR TENSION)

OVERVIEW

Equipment name			
Number of sensors	<input type="checkbox"/> Bilateral sensing	<input type="checkbox"/> Unilateral sensing	
Measurement object			
Tare weight	(* Weight of roller and pillow-type unit)		
Tension	Minimum :	Maximum :	Normal :
Roller diameter [mm]			
Roller length [mm]			
Maximum line speed [m/min]			
Web route			

CONDITIONS

Operating temperature	°C		
Operating environment	<input type="checkbox"/> General <input type="checkbox"/> Waterproof <input type="checkbox"/> Heat-resistant (°C) <input type="checkbox"/> Chemical-resistant <input type="checkbox"/> Overload <input type="checkbox"/> Explosion-proof <input type="checkbox"/> Others ()		
Sensor interconnecting cable length	m	* Standard 2m (5m, 10m, 20m)
